The Texas Sittings investigation is awakening the echoes of a dark and hidden corner, affecting legislation.

In reference to the state treasurer the Panola Watchman says, "there is no good sense in keeping a man in office all his life."

The Dallas Times agrees with Mr. Etheridge in wanting penitentiary superintendence kindly to the cause of resumption.

The Print proposes to lack the assertion with money, that it has nearly twice as many subscribers in Galveston as the News.

The president has gone a fishing in Florida. If the small fry will bite he will soon return to Washington.

The whisky market has been most seriously disturbed of late. Large failures have occurred in Kentucky, and prices appear to be going lower.

It is thought now that Col. Haynes, collector at Brownsville, will hold his office until the term expires, and then that Mr. Goidrich, his deputy, will get the place.

PATTI, Albani, Salschi and other noted musicians, have given a concert in New York in aid of Washington and Lee university. The generosity of these great singers is proverbial.

The Republican organs are very anxious for the Democrats to stop talking about the new tariff law. They have also been always very anxious for the Democrats to stop talking about the infamous Republican frauds of 1876.

The New York Sun believes that the sprague house in Rhode Island has perished in the last. The speech of Providence, favoring his election, is said to be more destructive than a black frost.

The legislature of California has given \$750 to the Ladies' Silk Culture association of that state, and has established a silk bureau. The silk industry in that state, it is thought, will soon be among the foremost sources of production.

A resolution is called to the attention of Rev. B. A. Rogers, of Waco, concerning prison reform. Mr. Rogers is a most profound thinker and a comprehensive observer, and his observation of prison life has brought upon prison reform make his authority.

The first step in the transformation of the Church of England in the American colonies is the Protestant Episcopal church in the United States. It is not to be closed in the center. It is appropriate to be celebrated at Waco, Conn., on the 28th of March.

The age says that the Statesman is not so reckless as to use "The Statesman has not been recent enough to state that any state officer is dishonest. It criticizes the acts of public men, and is generous enough to accord to error a misguided conscience."

A passage under the Alps—the St. Gothard tunnel—was opened, connecting Italy and Germany. The trade through this tunnel is immense, and yet Great Britain is shivering and hesitating whether to allow the cutting of a channel tunnel, through which billions of trade would pour annually.

Judge Hancock's name is mentioned in connection with the postmaster generalship. The rumor is certainly groundless, since a Democrat would not be offered a cabinet position, and besides Judge Hancock would hardly give up a brilliant career in the house for a sort of political burial place.

The treasury estimates indicate that under the new tariff law the revenue will be increased, taking as a basis last year's importations. The tariff makers had no idea of hurting the barons' feelings by cutting down their bounties to any appreciable extent. On the contrary, the tariff taxes were positively increased on many articles.

Not many days ago the Dallas Herald, in one of its long-winded editorials, said of the Statesman's opposition to the penitentiary leases: "Its reckless articles have been so intensely bitter as to have the effect of actually producing a reaction in favor of the penitentiary lease." How wonderfully full of perception and truth is the Dallas Herald!

The Austin Statesman wants the pay of legislators increased. The majority of the members don't earn half the amount received now in Galveston.

Our contemporary is mistaken. A majority of the legislature has signalled itself by discarding a scheme more damaging to Texas than any expense of two sessions of the legislature.

THOMAS SIBLEY & Co., seedsmen of Chicago, Illinois, and of Rochester, New York, are complimenting all the editors in the country with splendid packages of seeds of all kinds for the vegetable and the flower garden, and the newspapers are generally making the enterprising establishment known to the trade as a most reliable one. The Statesman was complimented like the other papers.

In Stuttgart, Germany, there is an American public library, consisting of books and publications relating to America, which have been donated by citizens of this country. This library is consulted by those in search of information about the United States before emigrating or investing money here. In order to render the library still more valuable as a means of enlightening the people of Germany concerning America, it is now proposed to connect with it a permanent exhibition of American national products, comprising samples of agriculture, horticulture, mineral specimens, etc. The idea is a good one, and deserves encouragement. The project can hardly fail to be of advantage both to this country and to those who contemplate coming to it.

A MOVEMENT has been started for the purchase of Liberty Hall, the home of the late Alex. H. Stephens, by the people of Crawfordville and Tallapoosa county, Georgia, that it may be preserved as a memorial of the dead statesman; and it is also proposed that Mr. W. W. Story be commissioned to make a statue of Mr. Stephens in his roller chair for one of Georgia's niches in the federal capitol.

In Massachusetts a railroad conductor whose disobedience of orders caused a collision and the loss of several lives, has been found guilty of manslaughter. At last the law is beginning to discover that somebody is responsible for railroad accidents. Where carelessness results in injury to persons or loss of life, the train officers should be criminally prosecuted, and the railroad company should be held liable for the damages done to persons and property by its negligent or reckless employees.

This department of agriculture will shortly establish near the city of Washington, an experimental farm and hospital for the treatment of domestic animals, with a view to ascertaining by a series of scientific experiments what are the causes of such diseases as Texas fever, pleuro-pneumonia, etc., and what are the best methods of preventing and curing them. The experiments will be under the direction of Dr. DeSalmon, of Asheville, North Carolina, a specialist, who has been for some time engaged in such investigations.

A NEW purpose in the journey of President Diaz, of Mexico, through the United States has been discovered. It is now reported to be designed wholly for effect on the pending reciprocity treaty. Diaz, it seems, is brought into contact with persons of influence in the deliberations of the senate. This looks like long rolling, but as it is in a good cause no fault need be found with it. The Globe-Democrat in touching upon this subject says: "The truth is, unless a reciprocity treaty, with liberal provisions, can be established, a good deal of the money that our people are pouring out in the purchase of foreign goods will be legitimately thrown away. There will be only a minimum of business for the numerous roads so long as there is a 40 per cent tariff on one side of the Rio Grande and an 80 per cent tariff on the other."

A LETTER from Gen. Johnson, of Burnet, appears in this issue. It is in relation to the school land bill, and, conforming so well to the opinions of the STATESMAN, it gives special pleasure to present his opinions to our readers. It is not to classes in the senate. This looks like long rolling, but as it is in a good cause no fault need be found with it. The Globe-Democrat in touching upon this subject says: "The truth is, unless a reciprocity treaty, with liberal provisions, can be established, a good deal of the money that our people are pouring out in the purchase of foreign goods will be legitimately thrown away. There will be only a minimum of business for the numerous roads so long as there is a 40 per cent tariff on one side of the Rio Grande and an 80 per cent tariff on the other."

THE NEWLY-ELECTED officers of the Louisiana and Texas railway company are A. C. Hutchinson, president; John G. Schriever, vice-president and treasurer; and John B. Richardson, superintendent of railroad division; Henry J. Leovy, attorney.

ACTING GOV. BOYNTON, of Georgia, is ahead in the number of instructed delegates to the coming Democratic convention, but is being held back by the presence of Mr. Macon, who was Mr. Stephens' competitor. It is reasonably certain that neither will have a majority and the changes for a dark house are promising.

THE TENNESSEE legislature has passed a law making it a felony to keep gambling houses, and fixing the penalty at not less than one year nor more than three years in the penitentiary. Will not our legislature take up this most serious question and stop a discreditable practice, which is corrupting the morals and degrading the character of so many helpless women and children.

BEFORE the war Virginia erected in Richmond an equestrian statue of Washington, at a cost of \$500,000. The money was borrowed, and the statue is now a part of those which have been sold by the state to pay the interest on the debt. The statue is now a part of those which have been sold by the state to pay the interest on the debt.

THE SAN ANTONIO Express thinks the legislature might just as well adjourn and go home, since it is not satisfying anybody. It is not so good as the Express says. The legislature has done and will do much good. There has been no end of the government, leading and shaping matters of great public importance, and what has been done was done under the very greatest difficulties; but the people have been heard, and obedience to them is worth all the money that has been paid for legislation during the last ten years.

THE ANNUAL commencement of Jefferson medical college was held on the 2nd instant, and conferred the degree of medicine on four students. The graduates were: John H. Davis, Jr., of New York; J. W. Davis, Jr., of New York; J. W. Davis, Jr., of New York; J. W. Davis, Jr., of New York.

The project can hardly fail to be of advantage both to this country and to those who contemplate coming to it.

It is said when the president first proposed his junketing trip to Fort Monroe and Florida he invited every member of the cabinet, as a matter of courtesy, except Brewster, attorney general. "Why this was?" was asked by many. It now looks as though the president did not want the blubbery attorney general, because of his well-known weakness for "tanking up" when on trips of this kind.

A Missouri gives her legislators only a dollar a day, and many of them are not worth this sum.

The debt of the United States, less cash in the treasury, is \$1,576,931,288. The decrease since June 30 is nearly \$112,000,000.

SPEAKER GIBBS is so to the effect that Randall has pooled issues with John G. Thompson, candidate for sergeant-at-arms.

A GENERAL order has been issued by the navy department changing the title of the grade of master to that of lieutenant, and the title of midshipman to ensign.

THIRTY people killed in Arizona in two weeks is the sum total of the blood-work of the Apaches. In return, the United States troops have gained a great victory in the capture of one old squaw.

The papers of Louisiana are stirring up a fuss about the state treasury being plundered. It appears that public lands have been sold and cash received therefor, while these very lands have been covered by McNary scrip.

TOM OCHILTER ought to be promoted to the secretaryship of the state, for he is the greatest of living financiers. He has just paid the government a claim against him for ten thousand dollars with his promise to pay five hundred dollars.

Mr. J. G. BATTIE has sold the Bell-ton Journal to Messrs. Hunter and Robinson, printers for many years in his employ. Mr. Battie has conducted a most admirable journal, but it is to be presumed the paper will by no means suffer through the change.

The newly-elected officers of the Louisiana and Texas railway company are A. C. Hutchinson, president; John G. Schriever, vice-president and treasurer; and John B. Richardson, superintendent of railroad division; Henry J. Leovy, attorney.

XVIIIth Legislature.

Seventy-Second Day's Proceedings.

SENATE.

The senate met at 10 a. m. Hon. A. W. Houston presiding, and a quorum present.

Prayer was offered by the chaplain, Rev. Dr. Smoot.

On motion of Mr. Johnston, the reading of the journal was dispensed with.

REPORTS OF STANDING COMMITTEES.

Education.—Mr. Davis, chairman, reported favorably on the bill for the establishment of a normal school at Austin, and the collection of taxes for school purposes.

Judiciary No. 2.—Mr. Good, chairman, reported favorably on the bill for the protection of the creditors of deceased persons.

State Affairs.—Mr. Patton, chairman, reported favorably on the bill for the amendment of the provisions of article No. 110, revised statutes, foreign as well as domestic.

Message from the house announced the passage of house bill No. 409, to make the county of Bexar a separate county, which unite to complete a line of transportation of the agent of all the others; and every person carrying with him the non-carriers, or any one of them, for the county of Bexar, and the collection of taxes for school purposes.

Mr. Patton called up senate bill No. 177, amending article 57 of the revised statutes, concerning the house amendments.

Mr. Patton moved house bill No. 380, to amend article 57 of the revised statutes, concerning the house amendments.

Mr. Patton called up senate bill No. 177, amending article 57 of the revised statutes, concerning the house amendments.

Mr. Patton moved house bill No. 380, to amend article 57 of the revised statutes, concerning the house amendments.

Mr. Patton called up senate bill No. 177, amending article 57 of the revised statutes, concerning the house amendments.
